19 October 2004 ART UNIT 2173

Art Unit: 2173

1. The following is an examiner's statement of reasons for allowance.

The Examiner has carefully considered the independent claims 1, 7, 9 – 14, 15, 20, 21, 24 – 26, as amended in the response and supplemental response filed 14 June 2004 and 13 August 2004, respectively. The prior art now made of record does not teach nor suggest the particular "schedule" implementation that is now recited.

Specifically, the claimed invention works with "virtual" time and place specifications or a specification that might reference an interval or range of time and place. The best prior art of record Tognazzini (US #5,790,974), while working with a GPS receiver and timer so as to supply spatial and time information to a notifying schedule device, does not go so far as to allow for arbitrary specification outside of actual conditions.

The reference cited as secondary to Tognazzini, Moon et al. (US #6,064,975) **does** permit the user to enter alternatives for place, so as to observe, for example, holidays in another locale, but this is not the same as setting to a virtual secondary time and place for the purpose of executing a schedule, nor is an interval or range supplied in setting the constraints upon Moon et al.'s calendar display.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raymond J. Bayerl whose telephone number is (703)

305-9789 through the month of October 2004 and (571) 272-4045 thereafter. The examiner can normally be reached on M - F from 10:00 AM to 5:00 PM ET.

4. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Cabeca, can be reached on (703) 308-3116 through the month of October 2004 and (571) 272-4048 thereafter. All patent application related correspondence transmitted by FAX **must be directed** to the central FAX number (703) 872-9306.

5. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-3900.
